AIRPORT ADVISORY COMMITTEE

The airport staff is looking for volunteers to serve on an Airport Advisory Committee.

After visiting with a number of pilots on the airport proper it is apparent there is a wealth of talent and experience that could serve on an advisory committee to make recommendations for enhancing airport operations and safety. Once the Advisory Committee is established, decisions will be made about election of officers, frequency of meetings, etc.

Call the airport administration office if you are interested in serving.

NORTH LITTLE ROCK AIRPORT

SEPTEMBER 2006
Volume 2 Issue 2

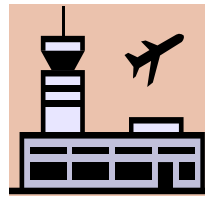

FROM THE DESK OF THE DIRECTOR

Airport Great Cleanup Scheduled for October 2006

The North Little Rock Airport is gearing up for its great cleanup scheduled for October 5, 6 and 7 with actual debris pickup scheduled for October 8.

We have coordinated all activities with Mr. Harold Ford, the city Sanitation Director. Just prior to the event we will decide on designated pickup points for all the debris. Mr. Ford stated anything with a compressor must be removed and that gas and oil must be drained from equipment before it can be picked up.

Part of the cleanup will include sprucing up outside and around the hangers, mowing and maybe

some painting. Items inside the hangers can be discarded during the cleanup period.

Tires, rocks, masonry products, paint, chemicals, oil, automotive parts, refrigerators, air conditioners, furniture, plywood, appliances are just some of the items that can be put out for pick up. If you have any questions about what can be picked up call the airport administrative office

Remember to keep your piles stacked low around the hanger areas for aircraft movement throughout the weekend.

We appreciate your cooperation and support.

The B-17 Aircraft Visiting Airport October 12-15

The Aluminum Overcast, B-17, will be visiting the North Little Rock Airport October 12-15. The stop over is sponsored by the Experimental Aircraft Association (EAA), Chapter 165.

At each stop flight missions are available in the airplane which allow people to take flights in this spectacular aircraft. The flight experience costs between \$359 to \$425 depending on whether you are an EAA member and if you make advance arrangements for the flight. For more information regarding flights visit www.b17.org or contact EAA's B-17 tour office at 1-800-359-6217

Ground tours of the B-17 are also available. Tours are \$6 per person 18 years and older, \$10 per family (adults/children 8 to 17 years of age), \$5 per student, \$3 per person for adult groups of ten or more (high school & older), \$1 per person grade school group of 10 or more, free for children under 8 years, all WWII Vets and former B-17 flight experience participants. Ground tours will be available starting October 13 at 2 p.m.

The activities will take place on the east ramp of the North Little Rock Airport with access at the Maryland Avenue entrance. Plenty of food, drinks, and parking will be available.
